TUITION

“ I don't think I would have passed my 11+ exams without AE Tuition. They gave me a huge boost and were a key aspect of my success. I even learnt time management skills and how to stay more focused and motivated. ”

Why I came to AE Tuition

I wanted to attend grammar school and didn't expect significant difficulties in preparing for the 11+ exams. However, when I started the 11+ Year 5 One Year Course in September 2021, I realised the amount of work and support necessary to prepare for the 11+ exams.

What I experienced as a pupil at AE Tuition

The majority of my time at AE Tuition was really positive. What really helped was seeing my progress from the regular testing we did in class. If I did need any help, my teacher and the classroom assistants really supported me.

I don't think I would have passed my 11+ exams without AE Tuition. They gave me a huge boost and were a key aspect of my success. I even learnt time management skills and how to stay more focused and motivated.

What I found challenging

The only tough part was how time consuming the homework was. However, I understood how valuable this was, and soon got into the routine of doing my homework.

My experience of taking the 11+ exams

My experience of taking the 11+ exams was a bit stressed and anxious before taking my 11+ exams. However, I knew I was well-prepared because of all I learnt on my course.

Where am I now

I'm currently in Year 8 at my chosen grammar school. I'm really proud of my achievement

of attending the grammar school I wanted. I'm still thinking about what career to choose. I am thinking of becoming a lawyer, doctor or engineer.

Looking back at my AE Tuition days

I knew that the course would help me pass my 11+ exams. However, I didn't realise that what I learnt would be so valuable and useful to me at grammar school as well. It's not just the knowledge, but I learnt how to stay focused and how to manage my time well.
